

Polygon Report: Diamond Prices

The Diamond Prices report is provided by Polygon for the benefit of the trade and provides key decision-making information to jewellery professionals dealing in loose diamonds. Prices are per-carat, wholesale, asking price averages for independently-graded round diamonds in Polygon's diamond database, as of August 1st, 2011. Actual transaction prices are confidential and may be somewhat lower. This matrix counts SI3 as I1 for purposes of computing averages. In general, finer makes will command higher prices, as will stones at the higher end of each weight range. The data represents the market trends on Polygon vs. the industry as a whole and is intended to be a comparative source of additional market information.

Trusted by thousands of members, Polygon is the most active online community and trading network for qualified gem and jewellery professionals. Over 2,800 members benefit from best-in-class professional social network tools and the largest online selection of estate pieces, high end watches, jewelry, loose diamonds, colored stones, pearls, coins and more. The high caliber of members on the network and the active participation of some of the brightest minds in the industry have made Polygon's community one of the most avidly sought business tools in the trade. Call 1-800-221-4435 or email info@polygon.net for more information.

The total asking price of the listings in Polygon's diamond database is more than \$3 billion. Stones are listed for sale by more than 700 dealers from around the world. All transactions are conducted privately between buyer and seller. Polygon doesn't make any representations whatsoever with respect to these indicators. Listings and prices on Polygon change hourly, and there can be no assurance that a buyer will be able to locate any specific stone at a specific price.
