

This price report is provided by Polygon for the benefit of the trade. Prices are per-carat, wholesale, asking price averages for independently-graded round diamonds in Polygon's diamond database, as of the date shown. Actual transaction prices are confidential and may be somewhat lower. Mean averages are computed with certain adjustments made to minimize error and ensure internal consistency. This matrix counts SI3 as I1 for purposes of computing averages. In general, finer makes will command higher prices, as will stones at the higher end of each weight range. Readers are urged to consider this data merely as a source of additional market information.
