

This price report is provided by Polygon. Prices are per-carat, wholesale, based on asking price averages for GIA-graded round stones listed for sale in Polygon's diamond database, as of the date shown. Mean averages are computed, with certain adjustments made to minimize data error and ensure internal consistency. In certain categories GIA reports are rare, and in those cases stones with other laboratory reports are used as well. Those categories are one-third carat: J and K colors and all I1 clarities; one-half carat, three-fourths carat and nine-tenths carat: K colors and I1 clarities; one carat and above: all I1 clarities. This matrix counts SI3 as I1 for purposes of computing averages. In general, finer makes will command higher prices, as will stones at the higher end of each weight range. Readers are urged to consider this data merely as a source of additional market information. For more detail on these indicators, please see below.

Polygon, from which these price averages are derived, is an international e-marketplace for diamonds, jewelry, watches, colored stones, estate merchandise and other goods traded at the wholesale level. The network is open to approved members of the trade for buying and selling. A membership fee is charged, and a member must have Internet access. Polygon is not a broker or dealer, and does not handle transactions or references. All transactions are conducted privately between buyer and seller, with Polygon serving only as a communications provider.

The total asking price of the listings in Polygon's diamond database is more than \$2.5 billion. Stones are listed for sale by thousands of dealers from around the world. Polygon does not make any representations whatsoever with respect to these reports. Listings and prices on Polygon change hourly and there can be no assurance that a buyer will be able to locate any specific stone at a specific price on the network.
