1- HOW TO

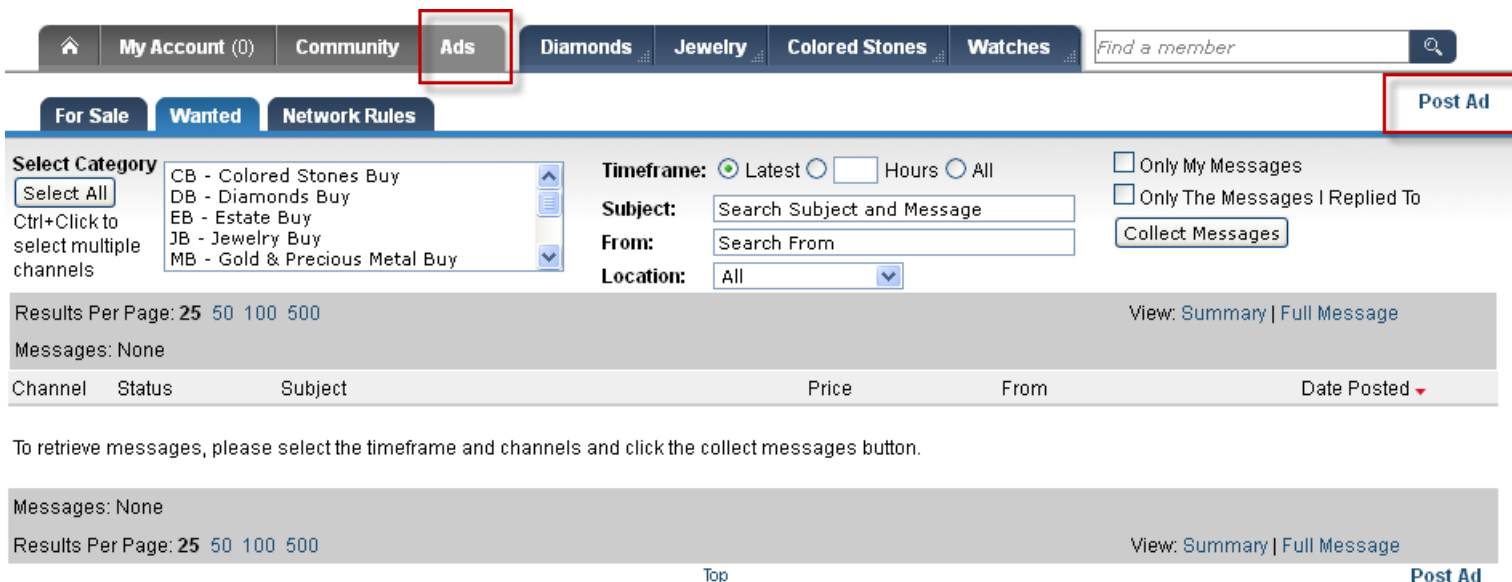

1. Post a 'Wanted' ad

If you are looking for an item and were not able to find it in our product databases or in the For Sale ads, you definitely should post a 'Wanted' Ad.

Useful Tips:

- When posting a wanted ad make sure to include images or certificates to make your item more attractive to potential buyers
- Include as much information as possible. This will ensure the responses you get are for the exact item.
- Let other members know the best means to reach you (phone/ online message; between 9:00 – 5:00 EST)
- Let other members know how you wish to pay
- Update the status of your wanted ad if you have found what you are looking for (this avoids frustration and keeps your reputation intact!)
- Templates are available within certain BUY categories to help you construct your ad. Use these when they are available as they allow sellers to quickly browse through ads in a standardized format.

- Go to "Ads"
- Click on "Post Ad"
